User Manual x1

# Bluetooth Function Description

## Turning the Gamepad On

### Android

A. To begin Bluetooth pairing, hold down the X button and then the button until the button's blue indicator light starts blinking rapidly.

B. Open Bluetooth settings on your Android device and search for nearby Bluetooth devices, then select GJS Gamepad to connect.

C. When the button's green indicator light remains lit, the gamepad has been successfully connected and can now be used with your Android device.

### Apple iOS

A. To begin Bluetooth pairing, hold down the B button and then the button until the button's blue indicator light starts blinking rapidly.

B. Open Bluetooth settings on your Apple device and search for nearby Bluetooth devices, then select GJS Gamepad to connect.

C. When the button's cyan indicator light remains lit, the gamepad has been successfully connected and can now be used with your Apple device.

## Auto Reconnect

Press the button. The blue indicator light will blink slowly and the gamepad will automatically connect to devices (such as phones, tablets, etc.) that it has recently been connected to and that have Bluetooth turned on.

## Turning the Gamepad Off

Hold down the button for about 5 seconds to turn the gamepad off. The gamepad will turn off automatically if:

1. its battery levels are too low;
2. it fails to connect for 2 minutes while pairing;
3. it is not used for 5 minutes while connected.

# Power Management

## Low-Battery Warning

If the  button's indicator lights turn red and blink alternately, the gamepad's battery is low. Recharge it with the Micro USB cable.

## Recharging the Battery

While recharging, the  button's red indicator light will blink continuously. When the battery has been fully recharged, the red indicator light will turn off, and the light will once again display the color of the selected mode.

## When the Gamepad is Turned Off

The gamepad will still consume a slight amount of battery power while turned off, so if you have not used it for an extended period of time, you will need to spend some time charging it the next time you use it.

Gamepad Status	Color	Working Normally	Low Battery	Recharging	Fully Charged	Reconnecting	Pairing
Android	Green	Lit	Red and Green Alternately	Blinking Red	Lit	Slowly Blinking Blue	Rapidly Blinking Blue
iOS	Cyan	Lit	Red and Cyan Alternately	Blinking Red	Lit	Slowly Blinking Blue	Rapidly Blinking Blue

## Reset Function

If something happens with the gamepad and it cannot be turned on or off, use a thin needle to press the Reset button in the small hole on the back of the gamepad to reset it to factory settings.

## Specifications

Product Name	Bluetooth Gaming Controller
Product Model	GJS Gamepad
Connection	Bluetooth/Cable
Platforms	Android/iOS/Windows
Working Modes	Gamepad Mouse/iCade/Windows XInput
Battery Capacity	400 mAh
Working Current	< 40 mA
Battery Life	8 - 48 hours
Working Temperatures	-20°C - + 65°C
Working Humidity	20 - 80%
Usage Distance	Within 7m (recommended)

## Attention

1. Avoid strong shocks, impacts and heavy pressure. Do not disassemble, remodel or repair this product on your own.
2. Avoid prolonged exposure to humidity, high temperatures, or fumes.
3. This product is not waterproof. Never submerge it in water or other liquids.
4. Prevent water or other liquids from entering the product's interior and affecting its normal use.
5. This product contains rechargeable lithium batteries and may explode if it comes into contact with fire.
6. It is highly recommended to use a 3.7-5V DC USB to charge this product, otherwise it may get damaged.
7. Children must use this product under adult supervision.
8. If there are quality issues, please contact the seller or salesperson.
9. If you have problems with the use of this product, please contact GJS' official customer service. Contact details: service and support.
